Perfect tracking

The tracking concept is easy to connect and operate, ensuring safe tracking even in difficult field conditions.

IntelliTrack has an integrated safety feature which prevents the cylinders from steering the drawbar when the driving speed is too high for the given track width.

Included on Deluxe edition.

Save up to 10% liquid

Minimize double sprayed area thereby saving up to 10% chemicals and avoid crop damage due to double spraying. Get full control of your spray job with the automated nozzle on/off feature AutoNozzleControl. Thanks to the PrimeFlow system, you will receive the highest level of precision, due to the exact control of each nozzle.

Option on Deluxe edition.

Connect

Besides offering you a full ISOBUS experience for easy connection of controllers, the HARDI SmartCom will provide quick and easy diagnostics with the HARDI ServiceTool. And due to the faster processing speed, you will experience a faster and very precise regulation system and steering precision. On top of this, cloud connections will prepare you for remote diagnostics.

Included on both Basic and Deluxe edition.

Intelligent control of liquid system

With the NAVIGATOR "i", an updated FluidBox is located at the WorkZone in the front. With a functional design, the sprayer operator will be able to quickly start the demanded operation.

- ▶ Easy operation of the SmartValves
- ▶ Control of filling, agitation, spraying and cleaning

Included on Deluxe edition.
